'meet our new' CONSUMER UNIT RANGES

The new range of Metalclad Consumer Units from Proteus Switchgear have been designed in conjunction with contractors and housing authorities specifically to meet the requirements of BS 7671 - The Wiring Regulations.

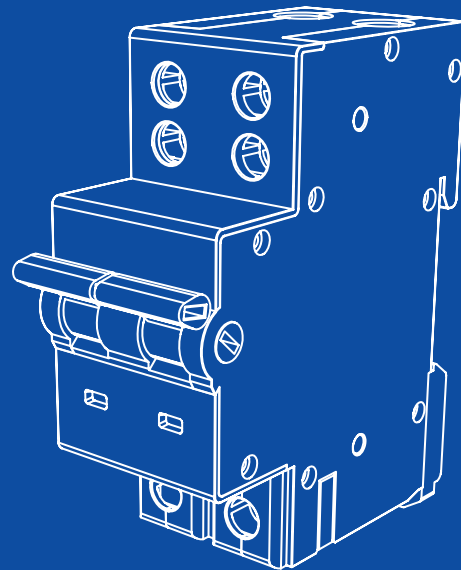

With a curved design, round corners and a matt white finish, the consumer unit offers the home owner a discreet and modern product, whilst providing ample protection for today's ever evolving market through our industry leading devices.

Designed inhouse and
brought to market with
contractors

FEATURING OUR *Patented* DUAL SCREW ISOLATOR
